Flights

[Back to Index](#)

When arranging your flights we suggest that you arrive any time on the day your safari begins. The international airport near Jinja is Entebbe. Return flights can be arranged to depart from the day after your safari is scheduled to end. Remember we arrive into Cape Town on the last day of the tour, so you may like to allow a couple of days to explore the city and its surrounds before booking your onward flight.

At certain times of the year, flight availability can become very limited and if you delay your booking, you might have to pay a higher price. Please organise your flights as soon as you can once you decide to travel.

The usual flight arrangements for this trip are sometimes known as 'open jaw' flights. These allow you to fly in to one destination and out of another. If searching online these are often called 'multi-city' or 'multi-stop' tickets.

Airlines that fly into Entebbe and out of Cape Town include Virgin, Qatar, Emirates, Kenya Airways, KLM and British Airways.

There are several budget airlines that can be used for the connection from Cape Town to Johannesburg including www.kulula.com.

We can help you with a flight quote. Please feel free to call the office if you would like assistance.

A friendly reminder – When purchasing your flights, check whether your flight ticket already includes departure tax (if applicable) for the country you are flying out of at the end of your trip. If it does not,

remember to keep the necessary funds aside in USD to make this payment.

Insurance

[Back to Index](#)

Your safety and enjoyment when travelling with Absolute Africa are of the utmost importance to us, which is why it is essential that you have arranged adequate travel insurance to cover your whole trip.

We are happy to introduce you to specialist insurance brokers Campbell Irvine, underwritten by AWP P&C SA. The cover includes a 24-Hour Worldwide Emergency Medical Service who are expert in providing friendly and professional emergency help.

Click on the following link to the page on our website to find out more:
www.absoluteafrica.com/Insurance

Do note that it is a condition of booking that you have contacted your insurers to confirm that the cover you have arranged is appropriate for ALL your requirements, taking into account the remote nature of overland travel, and that any hazardous activities you may intend to undertake are fully covered, including whitewater rafting on grade 5 rapids, scuba diving, trekking Kilimanjaro, volunteer work, lion walks, tandem sky diving and bungee jumping.

When selecting insurance carefully consider the cancellation policy, as well as cover for any valuables you might take. If you buy insurance in the UK you should check that your policy is valid if you are a non-UK resident and the provision for one-way travel if this is required.

Remember when travelling it is important to take all sensible precautions in regards to your security, safety and health, including taking precautions to avoid illness such as malaria. We advise you to make an appointment with a travel clinic as soon as possible after deciding to travel. Your travel insurance might also be affected by the relevant government's Travel Advice for the countries on your route. Do stay up to date with the latest official government Travel Advice.

Visa requirements for the Wildlife Journey

[Back to Index](#)

Your passport needs to be valid for at least 6 months after your trip finishes. Ensure also that you have enough pages in your passport for each country you visit. Up to 2 consecutive blank pages can be required when you enter South Africa at the end of your trip. As a guide then, for the Wildlife Journey you will need to have a minimum of 10 blank pages (sides).

If you have dual nationality you can only use one passport for the entire trip, but bringing both passports is a wise back-up strategy. For the Wildlife Journey, most passport holders including British, Australian, New Zealand, South African, German, French, Dutch, Canadian and American passport holders can get the Ugandan visa on arrival at Entebbe airport OR can apply online for a single entry visa ahead of time. This is 50 USD. You can then purchase a single entry Rwandan visa at the border for 30 USD. **This is payable in USD cash. Please note Irish citizens do not require a visa for Uganda.**

From Tanzania, visas for most passport holders including British, Australian, Irish, South African, German, French, Dutch, Canadian and American passport holders can be arranged in Africa en route. Visas can only be paid for in US dollars cash.

The Wildlife Journey safari starts at Nile River Explorers, Jinja, and you can arrive any time on the first day. The truck usually arrives late afternoon with clients that have travelled from Kenya who will continue through to the gorilla parks and further south with you.

The crew will organise a meeting in Jinja to go through all the basics you need to know about your safari, including health, hygiene, security and safety procedures. Please ensure you read the relevant sections in this dossier carefully. The crew will also collect the local payment, organise rosters and tent partners, show you how to put up your tent, and answer any questions you may have. There will probably be many aspects of going on an overland camping safari in Africa that will be very new for you, so do listen carefully.

Your crew are there to do all they can to help. Please feel free to discuss any matter with them. Do remember you are on a group trip and it is as valuable to listen to other people's ideas as it is to contribute your own.

Your crew have been trained and do know your route. They will facilitate group discussions and will advise to the best of their abilities.

Health and immunisation

[Back to Index](#)

Prior to departure it is essential that you contact a specialist travel medical clinic. Clinics such as Nomad Travel Stores and Medical Centre in London will provide you with the latest recommendations for travel in Africa.

You will need to have the required immunisations and start a course of anti-malarials prior to departure for this trip. Travelling to Africa will expose you to diseases and health hazards that you may not have come across before, such as malaria and waterborne parasites including bilharzia. You must consult a medical professional who specialises in travel medicine before you depart to discuss where you will be travelling in regard to the above, your immunisation schedule and any other requirements. Remember to start your vaccination program in good time, so that it is completed before you go. About six weeks is usually adequate, depending on how up to date you currently are.

Ensure you are well informed about any health concerns en route so you can stay fit and healthy to relax and enjoy your trip. The Lonely Planet publishes a medical travel guide for the region that may be of interest called 'Healthy Travel Africa'.

<http://www.traveldoctor.co.za>

There are travel clinics in many of the big centres in Australia, New Zealand and South Africa, as well as in Thailand, Singapore, Hanoi, Bali and Nadi.

Suggested immunisation requirements (This is a guide only)

The immunisations usually suggested for the countries visited on this safari are:

- Yellow fever – Vaccination must not be left any later than 10 days prior to departure and you must be able to show proof i.e. carry your certificate of vaccination with you.
- Typhoid
- Polio
- Tetanus
- Hepatitis A (three months)

- Meningitis
- Diphtheria
- Tuberculosis
- Other Suggested Immunisations – Hepatitis B, rabies.

It is essential to take a course of anti-malarials. It is best to discuss the type of anti-malarial medication you should take with a travel clinic such as Nomad. They will have the latest information on which medication is most effective in the countries through which you will be travelling. They can also advise on possible side effects and which drug might best suit you. Do follow all medical advice given with your prescribed medication. Do be aware that some anti-malarials can have negative side effects and also that your choice of drug needs to be appropriate to protect against strains of malaria specific to the regions in Africa through which you are travelling.

The choices usually suggested are:

Larium, taken x1 a week

Doxycycline, taken x1 a day

Malarone, taken x1 a day

Do think about how to set up a reminder system for yourself so you remember to take your medication. If you are taking a daily medication as an anti-malarial, do remember also to carry it with you on the plane in your hand luggage.

As well as your anti-malarials, you will need to bring a number of other medical items in a simple Personal Medical Kit. Medical kits can usually be bought at travel clinics. Alternatively lists as to the types of items you are advised to carry can be found in the 'What do I need to bring?' section.

General information on avoiding malaria

The best way to avoid malaria is to guard against being bitten by mosquitoes and stick strictly to your chosen medication regime. To protect yourself from being bitten:

- Cover exposed skin thoroughly in insect repellent, such as DEET, from dusk to dawn, and reapply it regularly. If applying with sunblock apply it above the sunblock.
- Ensure you carry enough DEET with you to Africa. It is not easy to get hold of mosquito repellent once on the road.
- Wear long-sleeves and long-legged lightweight clothing in light colours as well as socks.
- Always sleep under a mosquito net or in a secure tent with all zips zipped up.
- Wear impregnated wrist and ankle bands.
- You may wish to treat clothing with permethrin.

Do be aware also your insurance cover may well assume you are on a recognised course of anti-malarials. If you don't take a recognised anti-malarial, it may affect your cover.

Other medical issues

You are reminded that the incidence of HIV AIDS is very high in the countries through which we travel. Sexual contact and dirty needles are the main ways that the disease is spread. Do take all necessary precautions. Use condoms. If you have to have any kind of injection, do ensure that the needle is unwrapped in front of you.

You are advised also that the waterborne bilharzia parasite is present in many bodies of fresh water in Africa including sections of Lake Malawi. Bilharzia can be serious. It is recommended also to have a medical check up including a blood test particularly to check for bilharzia upon your return from your safari as a precaution.

Please ensure you contact a travel health clinic prior to departure for the most recent professional medical advice. The above is given as a broad guide only.

Remember it is a condition of booking that you let us know upon booking or at the earliest opportunity if you have any medical conditions, and particularly if you are on regular medication.

It is wise to know your blood group particularly when travelling in the Third World. As this is the case, as a precaution on day 1 your crew will ask for your blood type can you please have this information available for them.

We drive through the Grumeti Reserve onto Ikoma Gate, where we enter The Serengeti in our overland truck for game drives. The famous Great Migration passes this area year in and year out in the search of fresh pasture during the months from late April through to August.

The Serengeti is Tanzania's oldest national park. On our slow game drive through the park this afternoon we regularly have wonderful viewing including of the big cats and much other wildlife.

Home to The Big Five, it is famous for the annual migration when more than 200,000 zebra and 300,000 Thomson's gazelle join the wildebeests' trek. Gorilla trekking

On your trip we travel to south-west Uganda to Kabale and from there to one of the gorilla parks for those who wish to trek the mountain gorillas. We book the gorilla permits for your safari ahead of time to visit either Rwanda's Parc National des Volcans, where Dian Fossey worked with the gorillas, or alternatively Bwindi National Park, depending on availability.

A few things to note about your gorilla trek

Trekking the gorillas is undoubtedly the highlight of most passengers' safari and on average 30 to 40 people trek successfully with us each month in the gorilla parks. In order to protect the gorillas, only eight people trek to see them at a time so, to help you and avoid difficulties at the parks, gorilla permits are booked and paid for in advance. Our aim is always to obtain booking slots back to back to avoid delays and so that the group has

the best possible itinerary. Do be aware that permit availability can become very difficult and permits are in high demand. Delays in procuring permits can have an impact on the itinerary so we need to buy permits for your safari well in advance.

If you wish to trek, do return payment as early as possible on receipt of your invoice. Details as to timing of payment will be sent to you upon booking.

Trekking the mountain gorillas is one way of channelling essential and much-needed funds towards protecting this endangered species. Gorilla numbers remain dangerously low and trekking allows you to view these extraordinary creatures whilst also helping them survive. Tourism is making a difference to the gorilla's survival and it is vital that trekking continues to be supportive of this.

The gorilla parks are small and your actions in them have a real impact. Please take note of the following to ensure that trekking continues to impact positively on the gorillas and their environment:

- We will only take part in official walks with a guide. No more than 8 people trek at a time. You will have an hour with the gorillas. Please do not walk alone in the park.
- Coughs, colds and other viruses including diarrhoea are easily transmitted to the gorillas. If you are sick with a cold, flu or contagious illness please do not visit the gorillas. We do ask for your cooperation here.
- When you are with the gorillas do stay together in a tight group and don't surround them. You are asked to keep your distance: a minimum of 7 metres (22 feet). If approached by a gorilla, back away slowly to keep the 7-metre separation.
- Go quietly in the parks. Keep your voice down. Do not wave your arms or point as this can be seen as a threat. Move slowly.
- Please do not use flash. Make sure your flash is switched off. It can frighten the gorillas.
- Please do not smoke, eat or drink with the gorillas or within 200 metres of the gorillas. If you do need to cough or sneeze cover your face and turn away from the gorillas.
- If you need to go to the toilet, dig a 30-centimetre hole and bury it. Take all litter home and please do not pick or remove any plants or wildlife.

Do be aware there can be delays at the gorilla parks and that the gorillas are wild animals roaming in densely forested terrain. To find the gorillas you will trek in their forest home, up steep inclines and in dense jungle. The park guides are experts at finding them and at helping the gorillas feel comfortable and at ease with their visitors. Your guide and the trackers do everything possible to locate the gorillas quickly on your trek but it can be sometimes a long (but very beautiful!) hike. Bear in mind at other times they can be found within an hour.

Whilst your trekkers work very hard to enable you to see the mountain gorillas and 99.9% of clients do see them, a sighting is never guaranteed.

Do be aware the gorillas are located in an area that is subject to some ongoing political unrest. The Rwandan and Ugandan Armies work very hard to maintain security in the region. Gorilla tourism is an important contributor to the Ugandan and Rwandan economy. There is a significant army presence on all borders and much visible security at all Parks and the campsites. Plain-clothes and uniformed security personnel patrol local roads and in the local communities. Do be aware also that armed guards trek with visitors to the gorillas. We are confident that everything possible is being done to ensure security in the area. Our top priority must be the safety and security of our passengers and crew. Security in this region will be of ongoing concern for a while and can never be completely guaranteed as the park is on the border with Democratic Republic of Congo. Do be aware also that if we do perceive any increased security risk in the region we will immediately re-route your safari.

Zanzibar Island

As part of your safari we offer the option to go over to exotic Zanzibar Island for a 4-night stay in bed and breakfast accommodation. Three nights are spent in beach bungalows to the north of the island and then one night is spent in a lodge in the traditional ancient capital, Stone Town. We also organise a spice tour which provides a fun and fascinating glimpse of the history of the island. We visit the ruins of the Maharubi palace and plantations where exclusive fruits and spices are grown, the island's history being based around the spice trade. Otherwise the time on the island is yours to relax, enjoy the beach, warm waters and fresh seafood. There is a scuba diving centre beside the bungalows and snorkelling is also easily arranged from here.

Accommodation and other arrangements on Zanzibar Island can book out. We have found it best, over many

years of overlanding, to prearrange bookings well ahead of time to avoid disappointment and ensure all runs smoothly. If you would like to travel over to the island and stay together with your group and safari leader, these arrangements can be paid for before departure. Paying for these arrangements ahead of time also reduces the amount of cash you need to carry with you to Africa and particularly over to Zanzibar, which is a significant advantage. Most join in with these arrangements on the island, opting for shared accommodation. Singles are also available, for which there is a supplement.

Money and budgeting

[Back to Index](#)

When costing an overland safari the areas you need to consider are:

Before you go...

1. Your price
2. Your airfare
3. Immunisation and anti-malarials
4. Gorilla permit
5. Zanzibar Island stay
6. Insurance
7. Equipment

Step off the plane in Africa with...

8. Spending money – This is very individual and often depends on how much you drink, shop and wish to upgrade. A suggested budget would be 1,320 - 1,600 USD.
9. Local Payment – 1,060 USD .
10. Optional excursions – A traveller who wishes to do most optionals on the trip will spend an average of between 900 - 1,500 USD
11. Visas: 100 - 355 USD depending on nationality
Purchasing visas in Africa in US dollars for the above passports is currently cheaper than buying ahead of time.
12. Pre and Post safari costs

Please note: You need to carry money with you out to Africa to cover Items 8 to 12 (i.e. for your spending money, local payment, optionals, visas and pre and post safari costs). The figures above are conservative estimates for average spending per person on safari. There is a lot of variation in how much spending money individuals need as it is dictated by personal choice, as is your budget for optional activities.

We have no control over local operators' charges and new or other options that become available after our date of printing. Nor can we control exchange rate fluctuations, which can impact on budgets as some items are only payable in USD or are cheaper when purchased in USD. USD often tends to be the preferred currency. Figures quoted are based on regular information we receive from operators, passengers and crew in the past 12 months. You are advised that prices do go up and down very regularly. Our aim is to keep you informed of the most recent prices. In general you will often find that whilst some prices are underestimated at other times they are overestimated.

How do I take this money to Africa?

We strongly recommend that you organise the money you want to take to Africa before you leave for your trip. Clients are currently organising their cash for their safari as follows:

USD cash

We are finding that clients find it most convenient to take between approximately 2,000 - 2,200 USD cash on this trip. This includes money for your local payment, visa payments, some optionals and occasionally to buy local currency when you can't get to a bank or forex bureau, assuming you are also carrying some sterling or euro cash to use for purchasing local currency for spending money as well.

Please note that in general USD notes need to be dated 2008 or later and in good condition. When arranging your USD cash, a range of denominations is probably the most convenient including 5 USD and 10 USD notes as well as 20s, 50s and 100s.

Please do have suitable notes organised to pay the exact amount for your local payment if at all possible. Your local payment is payable on Day One of the trip.

Pounds Sterling and Euro cash

You may also like to carry up to 100 - 200 GBP or EUR cash as well if your money is currently in sterling or euro. This can be useful to buy local currency when you can get to a bank or regular forex bureau. If you are not in sterling or euro consider carrying more USD cash.

When arranging your cash remember small denominations can be useful but the larger denominations will give a better exchange rate. You should also request that your notes are not torn, written on or damaged in any way.

Sterling and euro are best carried as 20s and 50s to be used to buy local currency when you can get to a bank or forex bureau. Please note also that Scottish pound notes are not accepted.

When you arrive in Entebbe, you should change up enough money into Ugandan shillings to cover all your personal needs such as any accommodation, transfers and meals before you meet the truck. Please note meals are not provided for the first few days of the safari in Jinja. We would strongly recommend you change up 70 GBP/EUR at Entebbe airport when you arrive if your money is currently in sterling or euro. Otherwise change the equivalent in USD.

When you land in Entebbe there are banks open for international arrivals.

Cash is carried at your own discretion and should be organised before you leave for Uganda.

ATM access and Paying by Card

Note that it will be possible to access ATMs en route if you have a debit (Maestro) card or credit card (Visa and master card).

Do be aware where ATM access is available you can usually only draw local currency which cannot be used for all your costs. Many of your costs such as the local payment, visas and some of the optionals can only be paid in USD cash. Please note as well that Visa is the preferred card to use for payments.

Travel cards and cash passports are not well known and not widely accepted so not recommended to bring

Do note that ATMs are not always reliable as they can be out of money, broken or the power could be out so do not solely rely on ATMs.

In places like Jinja, Victoria Falls, Swakopmund and Cape Town a lot of the optionals can also be paid for by card. Note there might be charges for this.

Other things to note in regards to organising your money for Africa

It is not often possible to obtain many of the relevant African currencies prior to going, and where it is possible the rate is usually poor.

Your crew will let you know where is best to change up into local currency as you enter each country. It is best not to organise any local currencies prior to arriving.

For your information the currencies you will meet are:

Uganda	Ugandan shillings
Rwanda	Rwandan francs
Tanzania	Tanzanian shillings
Malawi	Malawi kwacha
Zambia	Zambian kwacha
Botswana	Botswana pula
Namibia	Namibian dollars
South Africa	South African rand

Your crew can advise you as to what you will need, where exchanges/banks are available etc. as you travel. You will need to consider as you travel what optionals you will wish to do as well as how much you'll require for your personal needs.

This trip is structured so that most of your costs are 'pay as you go' via the local payment, some optionals and your spending money. This allows you to control your budget and only pay for those things you wish to do. Overland trips have been costed this way for many years and for the following reasons: prices for some

optionals can vary a lot month to month; some optionals are quite seasonal, such as specific game parks and whitewater rafting; different clients like to do different options; banking in Africa is quite difficult. By doing it in this way, you also know that your money is regularly going directly to local operators in Africa. Do remember also to carry what you need for before and after the safari on top of the above budget.

Remember to carry the recommended spending money to ensure you have enough to cover for these times.

Personal spending money

This amount is individual and variations in budgets depend largely on how much you spend on souvenirs and drinks, as well as on lunch and snacks. It is a regularly updated average that has been provided by the crew and recent clients.

The spending money budget is also calculated to cover meals and occasionally camping those times when the truck is not on the road. In some destinations where there are popular overnight excursions such as on Zanzibar Island or on the houseboats on Lake Kariba meals and camping are not covered. At other busy destinations such as Jinja and Victoria Falls accommodation is covered but there is so much happening it is impractical to organise meals from the truck. You may also need to spend on personal costs such as email, toiletries etc. Some weeks you will spend more and other weeks less. The current recommendation to carry as personal spending money for this safari is 1,320 - 1,600 USD. Allow an extra 30 USD per week approximately if you think you might want to occasionally upgrade your accommodation to stay in chalets, which are available at some campsites.

For those who enjoy shopping or even browsing there are many different items to tempt you – traditional drums in Uganda, Tanzanian makonde carvings and stone chess boards, kangas and kikois, beads and jewellery, Malawi chairs, wooden giraffes and batiks to name just a few.

Regularly 'smallish' optional activities costing under 20 USD also arise, such as entry to 'Mosi-oa-Tunya' to see the Victoria Falls. These also will be covered by this spending money. Also, some clients like to buy a T-shirt at Victoria Falls as a souvenir of one of the many activities you might try, or a DVD of 'the big day out'. The Falls is also one of the places where the local restaurants offer huge variety and after weeks on the road, you might be tempted to try them, or even the nightclub or the casino!

Tippling: You may like to consider tips for good service, particularly at some of the main highlights such as after your gorilla trek, Ngorongoro Crater, houseboats at Lake Kariba and the Okavango Delta. You may find that you want to organise these tips as a group or individually.

If eating out in restaurants, a 10% tip is a good guide to follow.

Crew tips are certainly not expected although the Absolute crew do work incredibly hard and often much of this work is done 'behind the scenes', before or after the group is up and about. A tip or small gift is always appreciated and is also a way to show your appreciation of their efforts if you have had an enjoyable trip.

Do budget carefully to ensure you have adequate spending money to cover all eventualities and enjoy all you wish to do once out in Africa, bearing in mind that it is very difficult to access money from overseas once you are on the trip. Remember also to budget for whatever pre and post safari arrangements you might also have in mind.

Optional activities

These excursions are paid for in Africa with the exception of the gorilla permit and the Zanzibar Island stay, which are booked and paid for in advance in London if you wish to do these options.

Please contact us if you would like further information about any of these activities or excursions. Many of the optionals are payable in Africa in USD (cash). A few may be payable in local currencies. (Prices are given as a guide only as at March 2020)

Further information in regards to optional excursions and spending money

Paying for excursions in Africa allows you to decide what you wish to do as you travel. Bear in mind that some activities such as whitewater rafting and game park visits can be seasonal. Please note also that prices constantly fluctuate in Africa, partly due to exchange rate fluctuation. The above figures are the very latest currently available to us at the time of writing.

Lunch, drinks, souvenirs and your evening meals on Zanzibar are also covered by your personal spending money.

Updates on the price for all optional excursions are usually available in the update information we send out about two months before departure. Do check online for the latest copy of this document as well. Do be aware though that you are covering an enormous amount of territory on this trip and visiting many destinations, and consequently you may well spend a lot. Africa is not 'cheap', particularly when you add in game park entry fees and the cost of adventure sports such as tandem skydiving, whitewater rafting, scuba diving and the gorge swing. Much of what you see, though, will afford you priceless memories and allow you to be actively involved to the limit. And remember that the money you spend also enables much-needed cash to go to local people and wildlife conservation.

If you choose not to do an optional activity, do bear in mind that this is your chance to catch up on washing and communications, read, relax and take time for yourself. During these periods the truck is usually parked up at a campsite where there are adequate facilities for you to be quite comfortable while you wait. Your crew will also, when possible, help you with alternative activities – eg. safe places to take local walks that might be available, swim, cycle, hire a canoe, kick a soccer ball around with the local kids, go fishing, camel ride, visit the local markets or post office, a cinema, a museum, golf course, church, club or coffee shop.

There is a range of availability of things to do from destination to destination on the itinerary. At some places such as Victoria Falls and Swakopmund there is a lot of choice and either/or options. It is probably physically impossible to do all there is to do at Victoria Falls. At other destinations, which are quieter, there are fewer choices if you do not opt for the listed optional excursion/s. This is worth noting particularly for optionals that last over one or two nights as you may not wish to be on your own at a campsite for an extended period such as when the group visit Kariba Houseboats. Do bear in mind also with the houseboats in particular that they allow you to visit Chete Island for game walks or alternatively Matusadona National Park, and as well give the group a welcome break from camping and cooking.

If you would like further details of any of the different optionals for the safari please do not hesitate to contact the office. It is a group participation safari so it is worthwhile thinking and planning ahead as to what you personally might like to do and to work out a realistic budget accordingly.

Please note also every safari is individual and it is not possible to detail all the possible optionals you will have a choice to do nor to predict new options that can arise. We will endeavour to provide another accurate price update for you just prior to departure. Please also note though that we have no control over local operators' prices or government taxes. Nor do we select operators only on price; many factors have to be weighed up when selecting operators. We are always keen to get information on new operators and the best prices but do be aware that deals come and go constantly in Africa. Consistent service delivery and safe and respectful ethical practices are also worth searching for and rewarding. Your crew will work very hard to ensure you get the best value for money day to day on the road.

If you would like any assistance in regard to your budget please do not hesitate to get in touch with us.

What do I need to bring?

[Back to Index](#)

We ask that you carry your possessions in one large backpack, travel bag or soft suitcase (65 to 85 litre maximum). Day to day necessities can also be kept in an additional day bag, which should be large enough to carry your needs for two to three days at a time. Please note we reserve the right to refuse any extra baggage and sending it home or storing it will be at your own cost.

You should carry your valuables in a flat money belt that you wear against your skin.

Do remember that travelling light is always wise, particularly when going overland. Passengers also often buy a lot of African souvenirs on the way.

The vehicles have good storage capacity to carry souvenirs and there are lockups in the vehicle for your valuables, pack and day bag. There is a locker under your seat for easy access to day to day essentials.

The following list details essentials as well as non-essentials. It is a guide only. If you are unsure about specific items please feel free to ring us.

You need to bring:

- Travel documents including passport (plus relevant visas) and air tickets
- Booking Voucher with Final Receipt – essential for immigration purposes
- Vaccination documentation, particularly for yellow fever injection
- Insurance policy
- USD cash for your optionals, local payment and spending money
- Credit card – preferably Visa

Other items to consider

- Student/YHA card
- PADI licence/diving ticket
- International driver's licence
- Photocopies of main documents (keep separately)

Essential camping equipment

- Sleeping bag and sheet.
- Eating utensils, including cutlery, cup, plate/bowl
- Torch and batteries, a head torch being the most useful
- Mosquito repellent (DEET) 50% strength – up to 4 bottles
- Insect repellent spray
- High-factor sunblock cream
- Lip salve/Chap Stick
- Padlock
- Small personal medical kit including: anti-malarials, vitamin tablets, paracetamol, antibiotic powder, Band-Aids, cotton wool, sterile gloves, flu medication for coughs, colds and sinuses, rehydration salts, sports injury cream for sprains, an antihistamine, immodium, eyedrops, treatment for tummy bugs, stings/bites and sunburn. If you wear contact lenses you are advised to carry disposables.

Other items

- Pocketknife
- 1 litre water container (make sure it screws tight)
- Ziploc bags for wet items, rubbish and to keep items dust-free
- Towel and anti-bacterial soap
- Condoms
- Tissues
- A means of securing your hair back is useful such as a bandana, a scarf, beanies, hair ties and clips as it can be windy driving on the truck
- Cigarette lighter

- Concentrated travel washing liquid or washing powder, clothesline
- Emergency sewing kit
- Tweezers, nail scissors, nail brush

You will probably find it worthwhile to pick up a cheap blanket once you arrive.

In regards to toiletries, these are available to buy in Africa including shampoo, soap, toilet paper and tampons. Please note though that they can be quite expensive and it can be time-consuming sourcing particular items. Carry some toiletries at least for your first month.

Ensure you bring any medications you might require with you with the script.

The two most common gynaecological problems that may occur whilst travelling in Africa are thrush and urinary tract infections. If you know you are prone to either of these it may pay to seek advice from your doctor and bring the necessary treatments. Loose fitting, cotton underwear and clothes are always wise.

Consider bringing:

- Binoculars
- Pillow
- Wet Ones can be useful
- Books
- Writing paper, pens
- Mossie net impregnated with permethrin or similar if you want to sleep out of your tent at any time on safari, particularly in the warmer months (the tents we provide have in-built mossie nets at door and openings)

Electrical items

- Mobile phone
Text messaging can be a good way to stay in touch with the outside world. Remember if you are on international roaming the charges will be very high to make and receive phone calls.
If communication is very important to you, sim cards can be purchased very cheaply on the road.
Some clients have their phone unlocked before arriving in Africa whilst coverage is not always good on this tour
- iPod/iPhone or MP3 or Music player including earphones if you want to listen to your own music
Please note it is also possible to use your iPod or phone as a hard drive to store photos – check the memory before travelling to ensure you have enough space to store all the photos you may wish to take.
- Camera in a protective case and spare memory card(s)
- For SLR cameras we recommend a telephoto of 120 mm (or similar) or an 80-200 mm zoom
- 2 camera batteries, including a new one
- Polarising filter/lens hood for SLRs
- USB cable – to connect to internet cafes or for downloading
- Camcorder

Charging your equipment

If bringing a camcorder, digital camera, iPod or mobile, your equipment can be charged from the truck. The trucks have 600 watt Intelligent Power Inverters converting 24v DC to AC mains electricity (220-240v). This will be sufficient for charging any photographic equipment required. Remember to bring all necessary cables.

You will also want to bring a mains international adapter to charge at campsites as an alternative. A spare battery pack, where possible, is also advised.

Clothes

Please double check the weather conditions for your particular safari when packing. Cotton and loose fitting items are preferable. Do also realise that any white clothing won't stay that way!

- Lightweight cotton clothing, shorts and T-shirts as well as shirts with long sleeves and long pants, including casual wear for nights out. Long pants, sarongs and sandals are fine for these times
- Lightweight waterproof jacket and a fleece
- Swimming costume, sun hat, sunglasses, sandals
- Lightweight closed-in comfortable walking boots, shoes or trainers with a non-slip tread which give enough support and good traction. Please avoid shoes that get too heavy and hot, 'platforms', high heels or 'strappy' sandals

- Spare shoelaces

We would encourage you to bring clothes that will wear well, as travelling in Africa is very hard on clothes. Conditions are rough and belongings do get dusty and can get damaged. Soft bush colours are most suitable. Being able to layer clothing that can be removed easily as the day heats up is an advantage. This also helps to keep valuables inconspicuous. Clothes with zip and velcro pockets are sensible. Due to the bumpy road conditions women are advised to bring at least one sports bra. Women should dress 'modestly', respecting the sensibilities and attitudes of the people and countries they are visiting. This is of particular importance for your stay on Zanzibar. Note as well that G-String bikini bottoms can cause embarrassment and concern in some regions of southern Africa.

Be aware that camouflage clothing should be avoided.

Life on your Big Yellow Truck

[Back to Index](#)

Day to day it is essential that everyone helps out with every routine chore. The trips are participatory in nature – the more you put in to the group and the trip the more you will get out of it. Overland safaris are very much about everyone willingly getting involved and working as a team. A roster is established for duties. Tasks you will need to be involved in are: cooking and shopping, assistant to the cook, washing up, cleaning the truck, filling the jerry cans, lighting the fires and truck guard duty.

On safari do follow all instructions given by your safari leader as to how to use equipment, move around on, enter and exit the truck as well as how to maintain all supplies. Seat belts are fitted on the truck. For your safety please use these. Please also follow all washing and cleaning procedures carefully to avoid infections being spread.

It is essential in order to keep to schedules that you listen at group meetings to know what is happening and when, on the following day. Please follow all instructions carefully in regard to border crossings. Most trucks will carry an information folder with information as to what is happening for the next few days. For the group to function well you do need to keep yourself informed about upcoming arrangements. Group meetings are essential to help the group work together.

On a day to day basis you are encouraged to look out for each other and be considerate of everyone else's needs and wishes. Your group will be made up of individuals all wanting to get the most out of their trip and each of you will have your own specific likes and dislikes, needs and wishes. These are group adventure camping safaris, not a 5-star holiday! A sense of humour and patience are essentials to pack! The group experience of seeing your safari through together on the truck is one of the really exciting and fun aspects of the trip. For some, the group experience and day to day life on the truck becomes a main highlight.

Often on the road you will be up early for breakfast. Wherever possible, you buy lunch in local markets, and you will then have opportunities to mix in with the local community and organise anything you need to including ensuring you have enough drinking water. Remember how important it is to keep up your fluid levels during the trip. Please note we cannot guarantee the provision of regular clean drinking water from the truck throughout the safari and you do need to organise your own water day to day. At most campsites the truck can easily access clean drinking water and you will find the water carried on the truck is often drinkable, particularly once we head into Tanzania. Where this is not the case it is advisable to buy your own bottled water, which is readily available and most campsites now sell sealed bottled mineral water. When buying your water do check that the bottles are sealed.

Drive times in Africa, even in southern and eastern Africa, can be difficult to predict so do be prepared for the occasional situation when the plot changes! Getting bogged is an essential optional extra... be prepared. And in general, be ready for some occasional long and dusty drives. These are based on ongoing and careful scheduling decisions to ensure you get to the current 'must see' places.

On the road there is always a lot to see but you may also like to bring some good books and an iPod to listen to your own music. The occasional long drives are deemed essential by crew to get you where you want to be in the time given.

Schedules and itineraries

When you go on safari do remember our aim at all times is to enable you to have an experience of a

lifetime at an affordable price. Due to the nature of Africa – weather, politics, road conditions, lack of infrastructure, border restrictions, breakdown, sickness, etc. – it is not always possible to exactly follow

departure/arrival dates and routes. The best plans can unravel and in a lot of ways that is all part of the adventure that makes your safari. Itineraries and truck schedules can be changed at any stage prior to or during your safari particularly in consideration of crew needs, weather and road conditions as well as security concerns, truck servicing requirements and booking patterns. Whilst we do all we can to avoid making changes please note we do reserve the right to change vehicles and/or crew on a safari at any time without notifying passengers.

The trips are made up of components and quite often during the safari you will probably meet clients doing shorter and longer sections of your trip depending on the booking patterns for the months you are travelling.

Camping

We supply large, durable three-person tents complete with ground sheet and separate waterproof fly sheet, ideal for Africa's varied conditions. They also have mossie netting in-built at the doors and openings. These are used for two people only. We also supply high-density foam roll mats.

All cooking equipment is supplied including pots and pans, gas cookers, a cool box, lighting, fire-grate, cooking bench, chairs and shelter. The truck also has a large fridge.

It is a participation trip and part of your everyday routine will be to put up your own tent and be involved in all the daily chores including cooking and cleaning. For reasons of personal hygiene, we ask you to supply your own cup, plate and cutlery. You may wish to bring your own mossie net as well if you think you may wish to sleep out of your tent, particularly in the hotter months. It can become warm in the tents. Please note your net needs to be large enough to tuck in under your roll mat.

There is also the occasional opportunity to upgrade to a dorm-style chalet or simple hut accommodation with a bed if you think you might need a break from camping. Availability is very limited though, and you need to be considerate of everyone else on the truck. Do budget accordingly if you might wish to upgrade once or twice en route.

The facilities in the campsites we use vary a lot. In general you will find campsites that are clean, may give a little hot water, and can have working flush toilets. Be aware though that water pressure is often very weak and toilets are, in the main, long drop style through Uganda, Tanzania and Malawi. Please do not come on your African adventure camping safari expecting pristine bathroom facilities...

You will find that we may also camp in the bush a couple of times during this trip under the African night sky. Your truck is well equipped for these opportunities but be prepared to rough it a little on these nights and enjoy the chance to camp out in the wild.

Please remember when leaving a campsite that we do expect you to be diligent to leave places as you find them, if not better. In particular we insist that cigarette butts and toilet paper are not left behind when free camping... we are just visitors here in a continent with extraordinary challenges to face. Do be responsible as you travel.

Sickness

All our trucks have a medical kit, which has been put together by tropical expedition specialists for emergency use only. The foreign embassies throughout Africa provide English-speaking doctors for emergency situations. If you do become ill, we will transport you as soon as possible to the nearest health clinic and your crew will do all they can to assist. You will always have a friendly escort.

Meals and cooking on the truck

Day to day meals are prepared from the truck using both the non-perishable supplies bought in bulk prior to the safari and fresh supplies we buy as we travel. Staying fit and healthy on safari is a priority as we do keep busy and we want you to enjoy all you do. Everyone takes turns on a roster basis cooking for the group, being 'assistants' to the cooks and with the clean-up. The safari leader assists with menus, recipes and providing loads of ideas as well as being directly involved with cooking as needed. She/he is available to provide support and encouragement at any time during meal preparation. Cooking together is lots of fun and all part of the group experience! The sort of meals provided are spaghetti and pasta dishes, stir fries, cottage pies, kebabs, curries, stews and casseroles, hamburgers or jacket potatoes, complemented with rice and/or salads. Breakfast is usually fruit, muesli and/or other cereals, toast, as well as some regular

cooked breakfasts like eggs, bacon, baked beans or pancakes. During the trip we often also arrange to cook a spit-roast pig or goat or alternatively do a hangi, which is usually a project in itself...!

There are also a few pre-arranged meals booked ahead of time so the whole group can relax in the evenings in the knowledge that someone else is doing the cooking. This frees up the itinerary so you can enjoy a little more of Africa. We use these opportunities to enjoy a couple of traditional local meals on safari and also arrange a seafood buffet so the group can experience seafood fresh from the Indian Ocean. We also can contribute in part to the final restaurant meal together in Cape Town.

Specialist diets

For vegetarians we do everything possible to ensure a good supply of veggies, salads, fruit, beans, pasta and rice. The daily diet leans towards vegetarian as fresh quality meat is not easily accessed every day. The staples are beans, pasta, pulses and rice as well as fresh fruit and vegetables when available and in season. In restaurants, when meals are ordered ahead of time, vegetarian options are available with usually good supplies of fresh fruit, veggies and salads. Do be aware though how spoilt we are in the Western world with our constant supplies of fruit and veggies, regardless of the season. In reality and more naturally, fruit and vegetable supplies are seasonal and can be difficult to access en route. We will do all we can to ensure supplies where possible.

We can also cater for gluten-free, vegans, wheat-free and dairy-free diets, supplying soy milk, rice noodles, gluten-free cereals etc.

When booking, do remember to let us know if you have any specific dietary requests.

Safety and security whilst on safari

Traveling as a group does provide you with an added level of security. Perhaps the two most important factors to always bear in mind when travelling in Africa are to be constantly vigilant as to your own and your group's health and security.

Personal safety

Do be very aware of protecting your cash and valuables at all times and do not walk around flaunting valuables e.g. cameras, jewellery and money. Remember even cheap jewellery can look expensive! Day to day, layer your clothing to keep valuables inconspicuous and take clothes preferably with zip and velcro pockets.

Money Belts - The most efficient money belts are ones that go under your clothing, against your skin. If you use a bum bag please only carry small amounts of local currency in it that you are prepared to lose.

Do not leave anything unattended anywhere - including in your tent - and avoid being crushed in large crowds. Be very careful when you walk after dark; never walk alone or become separated from the group. Take taxis in cities at night and around unfamiliar areas. When taking taxis always agree on a price before setting off.

Once you join the truck, valuables can be locked safely away in a safety deposit box, which is kept hidden within the vehicle.

ATMs are becoming more accessible on the route, you must also be wary of security of crimes around ATMs. Be discreet when withdrawing cash and as always be very careful with your card and cash.

Truck security

Your truck will have a lockable safe in which to keep your passport and valuables. You will also have a lockable place on the truck to keep your day bag. Your backpack is stored underneath the truck. The truck is never left unattended. Do be aware on safari you will be required in certain locations to assist with watching that all is safe and secure with other passengers. Please note that whilst all precautions will be taken in regards to valuables left on the vehicle, we cannot be held responsible for any damage or loss from the vehicle.

Do listen carefully to all instructions regarding security issues given by your crew and local operators as we travel. Before travelling you are also advised to keep yourself informed and up to date as to the current political situation in the countries through which we travel and to check out the Foreign Office Travel Advice. If you are a British, Australian or New Zealand citizen you may like to look at: www.fco.gov.uk, www.dfat.gov.au or www.mfat.govt.nz.

Remember this is a group experience you are booking. It is a condition of booking that you follow the group leader's instructions and take responsibility for your rostered tasks. It is important that every member of the group is attentive and looks out for each group member's health and security. All in your group will

appreciate your co-operation with this.

Photography

African authorities often require that tourists do not take pictures of bridges, airports, railway stations or military installations. We are often in areas where locals are not used to being photographed and we ask you to show them every courtesy. If in doubt it is always best to ask first.

Trading, donating and supporting

You may wish to consider if you want to bring items such as old T-shirts, sunglasses, cheap watches, old walkmans/discmans and mobiles to trade.

Please be aware that we strongly discourage giving away 'something for nothing' from the truck, whilst we are very happy on the other hand to donate pens, books etc. to schools. Do note it is also very unwise to donate cash en route. If you wish to donate something whilst in Africa, remember pens, crayons, balls, books, soap and stickers are always welcome in schools and orphanages. For more ideas feel free to contact us.

Problems or issues you may have while on the tour

Where you have any issue at all during the tour, talk to the tour leader at the very earliest as this could affect the rest of your trip. The tour leader is there to help and they can't if you don't let them know the issue. Your driver is always happy to chat as well if the tour leader isn't available.

Remember as well these are group participation trips. Group meetings are there so everyone can talk about what's happening day to day so do raise any niggles or queries at the meetings.

If you do experience a problem while you are on the tour such as feeling unwell, not getting along with a fellow traveller or if there is something that you are unhappy with in regard to the running of the tour or anything else that is bothering you or stopping you from having an enjoyable trip, please do inform your tour leader directly of the problem as a priority. They will want to know. Once they know they can take the appropriate actions to resolve the issue as quickly as possible. All and any issues will be treated with the utmost confidentiality.

Everyone at Absolute Africa works very hard to ensure our travellers have the very best of trips. Should you have a continuing problem that you feel is not being addressed effectively it is your responsibility to email or contact the office at the very earliest. Detailing your concern in writing in an email is usually the best way to explain. We will then look into this immediately to see how the problem can be resolved so you can continue to have an enjoyable tour. Further details can be seen in our Terms and Conditions (14).

General code of conduct

We are ambassadors for our respective countries. How we act on safari should reflect this. An open mind, and a desire to have a positive impact, are vital attitudes to carry. A sense of humour is also an essential to pack for any safari in Africa.

We ask that each member of the group looks out for each other. These trips are about group participation and each member needs to do all he or she can to enable your group to work well together.

Day to day be sensitive and aware of how you and your group are being perceived by those around you. Be alert to where you are, sensitive when taking photos, aware of how much noise we are making, careful of how you are dressed. Everyone wants to have the best time possible in Africa and there are plenty of chances to have a trip of a lifetime. Excessive noise, obscenities and inappropriate behaviour cannot

be tolerated - we need to show respect for the places we visit and the people we meet enroute. It can embarrass other members of the group and seriously upset those around us, particularly in campsites and restaurants. You will get more out of your trip if you are responsive, discrete and sensitive to the world around you.

Be particularly alert to the impact of excessive drinking as you travel. Alcohol abuse will put your health at risk, particularly in malarial zones. For safety reasons we insist that alcohol is not drunk on the trucks.

There is also a strict no smoking rule onboard the trucks, and no-smoking areas will be set up for meal times.

There are serious penalties in Africa with regard to illegal substances.

Game parks are a spectacular sight. We ask that you show respect and keep noise to a minimum.

Everybody's game viewing on an ongoing basis is better served if our impact on a park is kept to a minimum. Do be attentive to all signs and instructions as to how to behave in game parks.

In a serious situation where behaviour is disruptive and/or dangerous the Safari Leader can step in and will remove you from the trip. Don't spoil your trip or someone else's trip.

We won't leave a campsite until it is entirely clean. Your enthusiasm with packing up camp to ensure all is left clean is appreciated.

Keeping in touch

It can be quite difficult and also expensive to stay in touch whilst you are travelling in Africa. Please let your family know that this will be the case, particularly if you are usually in touch on a regular basis. If your family needs to get in touch in an emergency, they should contact the London office and we will do all we can to assist.

Email – you will be able to access email in Kampala, Arusha, Zanzibar, Lusaka, Victoria Falls, Swakopmund and Cape Town. Please note internet speed is quite often very slow so be warned!

Post – Letters from the U.K. to Africa take approximately 10 - 14 days and from Australia or New Zealand to Africa approximately 2 - 3 weeks. Please be aware that articles regularly go missing in the post.

If you do need to have something sent to you while travelling, please contact the office as to the best destination and address to use.

Please do not have anything of value posted to Africa en route, including credit cards or prescription drugs. We would also advise against having birthday and Christmas parcels posted. In an emergency, if something needs to be got to you, the London Office should be contacted for further advice.

Language

English is understood in most East and Southern African countries. Learning some Chichewa, Swahili and Shona will ensure a warm response from the locals.
